

EAN code:
RFSOU-1: 8595188147071

| Technical parameters | RFSOU-1 |  |
| :--- | :---: | :---: |
| Power supply: | $2 \times 1.5$ AAA batteries |  |
| Battery Life: | Appr. 2 years, |  |
| according to the number of controlled units |  |  |
|  |  |  |

| Setting the range of light levels |  |
| :---: | :---: |
| Function $『$ (twilight switch) <br> - Range 1: <br> - Range 2: <br> - Range 3: | $\begin{gathered} 1 \text { to } 10 \mathrm{~lx} \\ 10 \text { to } 100 \mathrm{~lx} \\ 100 \text { to } 1.000 \mathrm{~lx} \end{gathered}$ |
| Function (light switch) <br> - Range 1: <br> - Range 2: <br> - Range 3: | 100 to 1000 lx <br> 1000 to 10000 lx 10000 to 100000 lx |
| Function setting: | rotary switch |
| The level of lighting gently: | 0.1 to $1 \times$ range |
| Fine adjustment of lighting levels: | potentiometer |
| The time delay t : | 0/1 min./2 min. |
| Setting the delay time t : | rotary switch |
| Control |  |
| Communication protocol: | RFIO2 |
| Frequency: | 866-922 MHz (for more information see p.72) |
| Repeater function: | no |
| Range: | in open space up to 160 m |
| Other data |  |
| Working temperature: | -20 to $+50^{\circ} \mathrm{C}$ |
| Storage temperature: | -30 to $+70^{\circ} \mathrm{C}$ |
| Operating position: | sensor side down |
| Protection: | IP65 |
| Degree of pollution: | 2 |
| Dimension: | $72 \times 62 \times 34 \mathrm{~mm}$ |
| Weight: | 104 g |
| Standards: | EN 60730, EN 63044, EN 300 220, EN 301489 |

- The twilight switch measures the light intensity and based on a set value, it sends the command to switch on the lights or pull the blinds up or down.
- It can be combined with multifunctional switching units and blind switches.
- Integrated sensor for measuring illumination, settable in 3 ranges 1-100,000 lx.
- Selection of function:
a) twilight switch - automatically switches on upon a decrease in ambient light intensity, switches off upon an increase (appropriate for garden lights, advertisements, public lighting, etc.).
b) light switch - automatically switches on upon an increase in ambient light intensity, switches off upon a decrease (appropriate for offices, restaurants, rooms, etc.).
- Settable delay up to 2 minutes to eliminate unwanted switching caused by surrounding influences.
- The twilight switch may control up to 32 units in the installation.
- The programming button on the regulator is used for: a) setting a function with a switching or blind unit
b) ascertaining battery status
c) ascertaining signal quality between the unit and dimmer.
- Battery power ( $2 \times 1.5 \mathrm{~V}$ AAA batteries - included in supply) with battery life of around 2 years based on the number of controlled units.
- Range up to 160 m (in open space), if the signal is insufficient between the controller and unit, use the signal repeater RFRP-20N or protocol component RFIO2 that support this feature.
